

Dewberry

2019 Coastal Resilience Engineer / Scientist Internship

Dewberry, in partnership with Virginia Sea Grant (VASG), is pleased to announce a paid summer internship focused on coastal resiliency. The internship is aimed at training exceptional students to become leaders in the field of pre- and post-disaster flood resilience. The selected intern will engage in an applied research project in the field, and focus on areas such as risk recognition, policy and/or engineering solutions and design parameters, and stakeholder communication to address short- and long-term resilience needs. The intern will be partnered with a Dewberry professional mentor relevant to their area of study and will be actively involved with multi-disciplinary teams working on ongoing projects across the nation. Throughout the fellowship, they will be afforded the opportunity to partner with local programs and academic institutions, and participate in resilience events with VASG and other members of the coastal Virginia resilience and adaptation community.

ELIGIBILITY & LOCATION

The internship is open to full-time graduate students who have research experience or training in areas including, but not limited to: coastal sciences and engineering, civil and water resources engineering, policy, communication, and/or data analytics. The selected intern will work alongside senior professionals at Dewberry's Fairfax, Virginia office.

Dewberry is an Equal Opportunity/Affirmative Action Employer. The internship partners are committed to building inclusive research, extension, communication and education programs that serve people with diverse backgrounds, circumstances, needs, perspectives, and ways of thinking. Diversity includes, but is not limited to, age, race, ethnicity, nationality, gender identity, sexual orientation, disability and/or health status, religion, veteran status, geographic origin and socio-economic status. Applicants enrolled at a Virginia institution and those with prior internship experience are encouraged to apply.

FELLOWSHIP PARTNERS

Dewberry is a leading, market-facing professional services firm with more than 50 locations and 2,000 professionals nationwide. What sets us apart from our competitors are our people. At Dewberry, we seek out exceptional talent and strive to deliver the highest quality of services to our clients. Whether you're an experienced professional or a new graduate, you'll have the chance to collaborate with the best and brightest and work on innovative and complex projects at the forefront of the industry. Our commitment to excellence stems from our personal integrity and from other defining attributes, which we call "Dewberry at Work," that have inspired our employees to be successful for more than a half-century.

Virginia Sea Grant's mission is to enhance the ecological, economic, and social sustainability of coastal and ocean communities and the ecosystem services they depend upon through university-based research, extension, education, and communication that provide science-based information to decision makers. VASG is a seven-university partnership headquartered at William & Mary's Virginia Institute of Marine Science, and composed of the University of Virginia, Virginia Tech, and George Mason, James Madison, Old Dominion, and Virginia Commonwealth Universities. VASG serves the Commonwealth of Virginia, the region, and the nation.
